Experience

Academy Securities, Inc. • San Diego, CA

Vice President, Data Engineering & Analytics

Dec 2025 - Present

- Architecting the firm's first cloud data platform on Azure to expand analytical capabilities and scalability while establishing version control and CI/CD practices with git and Azure DevOps to enable a future team
- Re-engineered the firm's monthly departmental P&L model, automating expense allocation and ingress into QuickBooks with a Python pipeline, and egress to Power BI for C-suite hiring, comp, and resource decisions
- Built an AI communications-surveillance pipeline in Python, monitoring 10K+ monthly messages, surfacing results in a searchable dashboard, and raising flagged activity for compliance review
- Developed the firm's commercial paper analytics platform, unifying 120K+ monthly rows of data from Bloomberg, DTCC, and Crane to enable granular market analysis, replacing a \$1M+ vendor proposal
- Delivered the firm's first client-level, cross-department revenue analytics reporting, using Power BI to bridge data across 13 sources, informing leadership decisions on strategic asset employment and client escalation

Operations Analyst

Sep 2023 - Dec 2025

- Built a config-driven automation platform on a dedicated VM, orchestrating 30+ scheduled Python and PowerShell jobs with centralized logging and automated error alerting
- Streamlined the firm's commission run process with an advanced Excel workbook (Power Query, Power Pivot, VBA) saving 20+ monthly hours of manual calculation across equities, municipal, and fixed income desks
- Took over as the firm's Salesforce admin, leveraging Python to automate reporting, bulk data ingress and egress. Wrote a bespoke algorithm using Levenshtein distance and cosine similarity to identify over 400 duplicate accounts, ~10% of total, and ensure data integrity moving forward
- Automated a firmwide scheduling report that coordinates client meetings and advisory assets globally, using Excel, Outlook, and VBA to reduce a daily hour-long task to under five minutes

United States Marine Corps • Various Locations

Lead Business Analyst / Operations Manager

Jul 2015 - Sep 2023

- Owned the lifecycle of critical force deployment data from collection to proper storage in enterprise data systems, and timely reporting to execute the movements of over 9.3K personnel and \$26M of equipment across 31 countries
- Managed a team of 12 operations staff to forecast deployment demand, identify shortfalls, and coordinate resource allocation for 4K personnel

Summary

Data engineer and Marine Corps veteran who builds the pipelines, integrations, and cloud infrastructure that turn scattered source data into clean, scalable systems. With experience spanning financial data engineering, automation, and business intelligence, he owns the full data stack, from ingestion to delivery.

Education

Master of Science in Business Analytics

University of California, San Diego

Rady School of Management • Dec 2025

Bachelor of Science in Economics

Arizona State University

W.P. Carey School of Business • Sep 2023

- Honors: summa cum laude

Technical Skills

Languages

- Python (pandas, numpy, sklearn)
- SQL (Postgres, Azure SQL)
- PowerShell
- VBA
- DAX

Data & Cloud

- Azure (SQL, Functions, Blob, SWA)
- Azure DevOps
- Entra
- Git (Azure Repos, GitHub)

Pipelines & Integration

- Power Automate
- REST APIs & SFTP
- Task Scheduler

BI & Analytics

- Power BI
- Power Query
- Power Pivot
- Excel (Advanced)

Platforms

- Salesforce
- QuickBooks
- Bloomberg Terminal
- SharePoint/OneDrive
